

Crane rope VS 16-2 C

Product information

Typical applications: Hoist rope for telescopic crane, harbour crane, offshore crane, mobile crane, rotating tower crane and lattice boom crane, where rotation-resistant rope is required.

Rope construction: Rotation-resistant, outer strands compacted, which provide better running properties.

Finish: Zinc-coated class B standard

Tower crane

Offshore crane

Mobile crane

Harbour mobile crane

Part Code	Rope Diameter, mm	Steel area mm²	Min. Breaking force kN. 1960 N/mm²	Weight kg/100m
